Sounds good. We can talk tomorrow. Just want to be sure I'm clear on the SOP so I'm delivering what you need.

I understand that the notification plan was posted on the official EPA GKM website; however, it was rude to think you should just know what was being discussed. This Plan was negotiated before I deployed last Wednesday so I'm not familiar with its genesis but I'm told it is important. I am serving as a conduit but my thoughts are that you would likely be asked to make the phone call from the command post to the Durango Incident Command (us here in the building) and thought it would be helpful if you understood what was being asked for. I'm available to discuss if you like – maybe on the trip to Silverton(?). - lw

Team -

Here are the three documents for you.

The GKM Notification Plan (PDF) signed on 9/7/2015 and the updated attachment identified on page 3 (EOC/OGC reviewed and releasable since it only contains official business telephone numbers and emails).

The draft GKM Notification Operation Plan is *For Official Use Only* and will contain information protected by the Privacy Act since it may contain home telephone numbers or other personal information. This will be a dynamic internal document for the team.
